RACO Takeoff Formats Guide

To help expedite the quoting process, we ask for takeoffs to be provided. In general, a takeoff will need to include the following:

- System to be quoted
- Wall size/frame series and finish
- Quantities and Dimensions of elevations
- Images of elevations/floor plan layouts as needed
- Special hardware preps if needed

If any of that information is missing or unknown, our estimating department will reach out with questions or send the estimate with qualifications for any assumptions made.

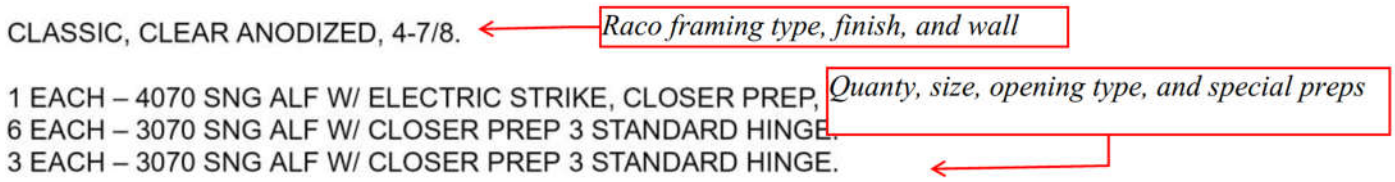
Our quote request form and order forms can be used to provide this information.

They can be found in the ***Forms & Worksheets*** section of our FAQ page: https://racointeriors.com/technical-data-faqs/

Below are some examples of takeoff formats that cover can be provided.

LIST

Example 1:



Example 2:

All frames to be 487 series, Type 2, clear anodized

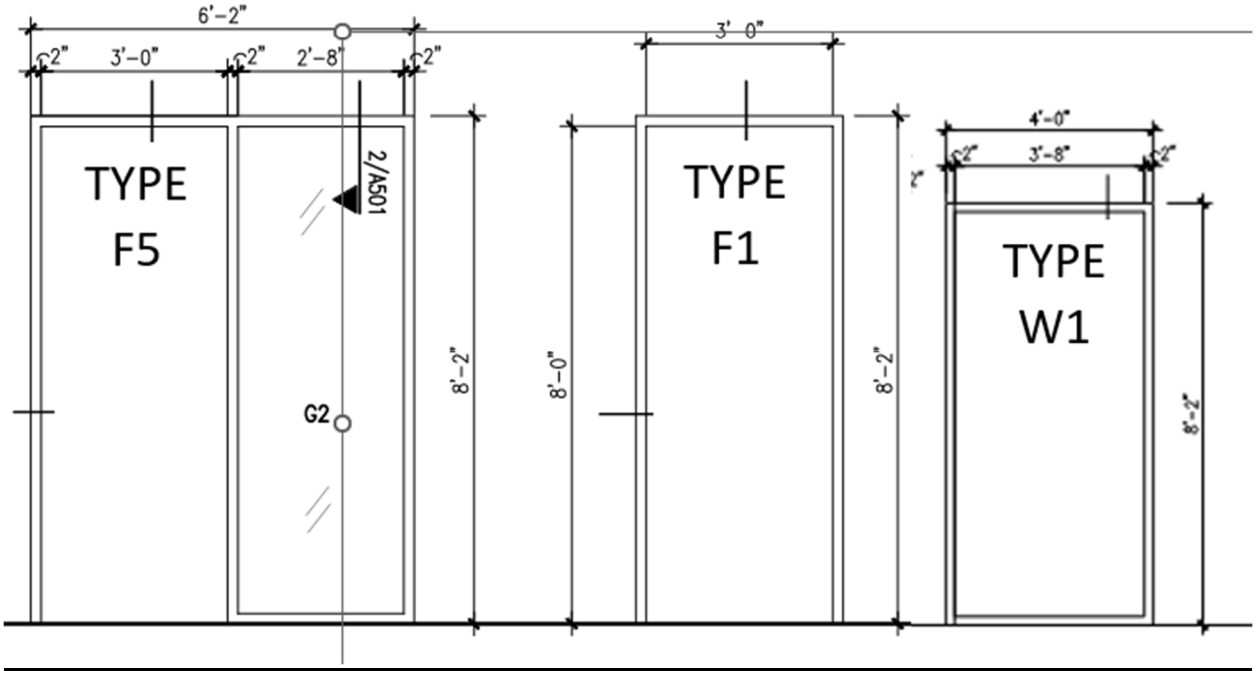
Job: ABC Clinic

2ea 3'0" x 8'10" x 4- hinges, ASA
1ea 3'8" x 8'10" x 4- hinges, rim panic, 3' full height sidelite w/ 1 horizontal mullion
1ea 3'0" x 8'10" x 4- hinges, rim panic, 90 min rated
2ea 4'0" x 4'0" x Four sided window

LIST with ELEVATIONS

Example 1:

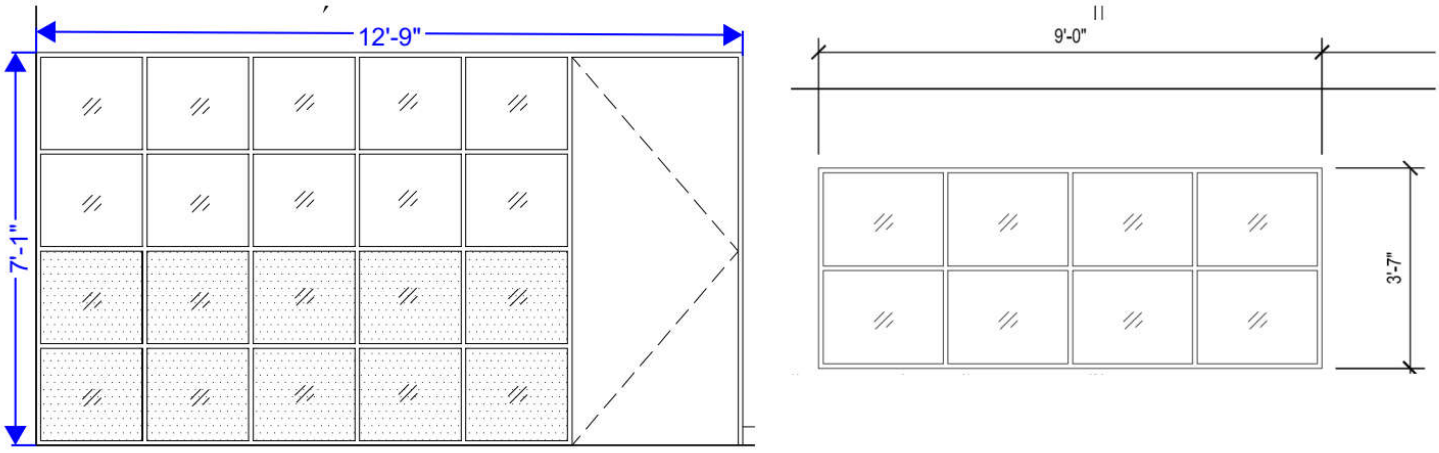
Qty	Product Description	Elevation
12	3'0 x 8 0 SGL 478	F1
1	3'0 x 8'0 SGL 7 1/4"	F1
1	3'0 x 8'0 SGL-60M 7 1/4" 60MIN	F1
12	3'0 x 8'0 SGL-SL 478	F5
2	4'0 x 8'2 B-L 478	W1
1	6'0 x 8'0 DBL 478	F1



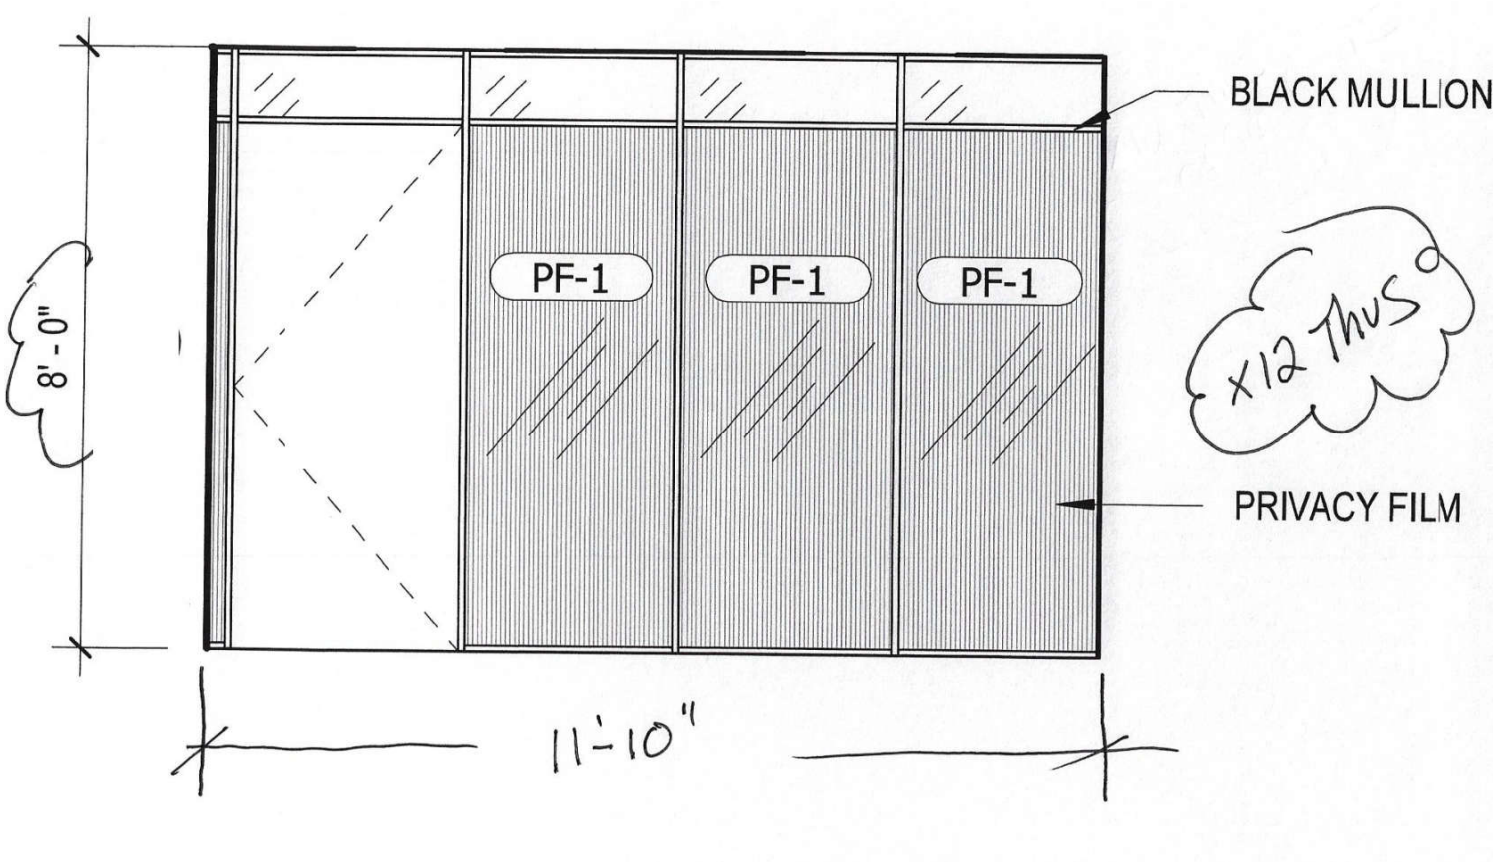
ELEVATIONS ONLY

Example 1:

Raco Solutions II, 5-1/2" wall
Black painted, 1-1/2" trim
1 each



Example 2:



MARKED PLAN PAGES

Highlight or provide info clearly as marked so Raco can identify required openings. Also provide the height information marked on the pages or in email.
